PART OF THE STORY

'APRIL 2006

How did Eagle Point come to be almost sixty years ago? My father, T. Edward Gilman, was raised on a dairy and chicken farm in Ashland. He was fond of steak and fried chicken, but he loved horses. He had a way with them from the time he was a child. He trained his milk cart horse, Dexter, to stop at each house while he caught a nap on early morning deliveries. When he and my mother bought Eagle Point the plan was to start a horse farm. At the Maryland Breeders Sale at Pimlico Ed purchased a mare for foxhunting for \$200. One of his hunting buddies was Dick Keely. After good neighborly discussion about which of their mounts was the fastest and much questioning by Keely about Gilman's training style, they decided to compete at the Deep Hunt Races, which is now known as the Strawberry Hill Races. Keely was quoted as saying "speed crazy Gilman... training his mare strictly for speed 'cause he don't know how to rate a horse properly." With a retort, Gilman states "

I consider myself a superior rater of horses and my mare Ginger is undoubtedly the best hunting mare in the state. If Dick is foolish enough to race against her, he will certainly be defeated." It was quite a write up in the local papers about who was going to win. Mr. Keely swore his four year old gray mare, Moomaw by *Flushing II, was "faster than greased lightning" and would beat my fathers eight year old chestnut mare named Ginger. Ginger, by Equipoise, had raced at two but her best finish was seventh. However, Ed liked her conformation and powerful hindquarters when he bought her. At the Deep Run Hunt Races Ginger drew
